

THE WORKHORSE

FLEET + UTILITY PACKAGE | A repeatable mobile-service platform built around the job.

16 FT

RECOMMENDED
PROGRAM BASE

BUILT TO MOVE. DESIGNED TO WORK. The Workhorse is a purpose-built mobile service trailer for established companies, franchises and field teams that need dependable units they can deploy, reorder and standardize. Start with one pilot, refine the layout, then reproduce it across territories, branches or technicians.

INCLUDED IN THE BASE PACKAGE

16-foot mobile-service foundation

- Commercial trailer chassis - 16 ft recommended base
 - High-strength framing and finished structural shell
 - Mobile-ready interior wall and ceiling surfaces
 - Durable commercial-grade flooring
 - 110V electrical system sized for the approved workflow
 - Gasoline generator matched to the specified load
 - Shore-power connection for generator-free operation
 - Interior and exterior LED task lighting
 - Strategically placed electrical outlets and dedicated circuits
- Integrated tool, parts and consumables storage
 - Equipment-mounting and tie-down provisions
 - Configurable exterior access doors and service openings
 - Ventilation appropriate to the selected operation
 - Fire extinguisher and carbon monoxide monitor
 - Documented master build specification
 - Controlled equipment and option configuration
 - Exterior-grade materials selected for daily field use
 - Core systems tested before delivery

AVAILABLE OPTIONS Configure the platform around the service workflow, equipment, utilities and brand standard.

POWER + AIR Lithium battery systems, solar, compressors, reels and air distribution	WATER + WASHDOWN Fresh/gray tanks, pumps, pressure-washing systems, hose reels and winterization	STORAGE + ACCESS Custom cabinets, drawer systems, shelving, work surfaces and exterior-access doors
EQUIPMENT INTEGRATION Purpose-built mounts for tools, machines, tanks, tire equipment and specialty systems	CLIMATE + CONNECTIVITY Heating, air conditioning, ventilation and Starlink connectivity	BRANDING + PROTECTION Fleet graphics, custom wrap, security upgrades and extended warranty

WHY A 16-FOOT PROGRAM BASE? A practical starting point for payload, storage, equipment access and maneuverability - with larger or smaller configurations available as the service model requires.

BUILT AROUND THE JOB Configure tools, power, water, air, reels, tanks, storage and access around the actual field-service workflow.	CONSISTENT FROM UNIT TO UNIT An approved master specification creates repeatable quality for technicians, franchisees, branches and new territories.	READY TO SCALE Pilot one unit, refine the standard, then place repeat orders in planned production cohorts as the network grows.
